

Issuing of **SAGGA Glazing Certificates**

National Glass Distribution now has access to issue an electronic SAGGA Glazing Certificate for the installation of our Eagle Aluminium range of products when required.

To issue a SAGGA Glazing Certificate we need to accompany the installer to site to compile a detailed inspection report ensuring all conditions of SANS 10400 – N have been met.

Please note that there will be an inspection and certificate fee applicable should this service be required.
